SSAA Townsville Branch Inc Temporary Covid-19 Virus Procedure

The following temporary measures are in place for both Discipline Captains and their members until such time that the QLD Health Directions are lifted, and the range is opened for the return to normal shooting by SSAA(QLD) via the SSAA Townsville Branch Inc Management Committee.

Members attending the practice sessions are to adhere to the following measures:

- Maintain social distancing at all times.
- No more than ten (10) people are allowed on the range at any one time. Please shoot and leave the complex ASAP upon finishing.
- Any firearm cleaning must be done away from the range.
- Use the provided hand sanitizer on arrival and then as often as necessary.
- Use the provided spray disinfectant on all surfaces (including target frames) that you use before and after you use them.
- This form is deemed the "single use" form for both acknowledging the mandated virus measures and complying with the Form 20C requirements. You are required to print out this form and bring it with you every time you attend a practice session. Once completed by you, the form is to be signed in front of the Range Officer. Bring your own pen.
- If you intend to purchase a target, you will need the exact cash/coins as no change will be given.
- Due to the lack of cleaning staff, the only available toilet block is on the pistol range. If used, you must disinfect before and after use with the disinfectant provided.
- If you don't turn up to shoot with this form unsigned, then you will not be shooting. We will not have spare forms at the range.

Club—Range Use Register (Category A, B & H)
